PROFESSIONAL SUMMARY

Final-year Software Engineering student at ISSAT Sousse, actively seeking a PFE internship in 2027. Focused on Full-Stack Development and QA/Test Automation, with hands-on experience shipping production web applications, automating end-to-end test suites, and integrating AI/ML services. Comfortable across the full delivery cycle — from architecture and implementation to testing, security, and deployment.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, Java, SQL
- **Frontend:** React, Angular, Vite, Tailwind, React Router, TanStack Query
- **Backend & BaaS:** Node.js, Express, FastAPI, Spring Boot, Appwrite, Airtable, REST APIs
- **Databases:** PostgreSQL, MongoDB, SQLite
- **QA & Testing:** Vitest, Testing Library, Playwright, Selenium, Robot Framework, k6
- **DevOps & Cloud:** Docker, Git, GitHub, CI/CD, Render, cPanel
- **AI & Automation:** Groq, Facebook Prophet, n8n
- **Design & Methods:** Figma, Agile/Scrum

EXPERIENCE & INTERNSHIPS

Software Test Automation Intern — CleverTech France (DAXme) *Jul – Sep 2026 Les Berges du Lac 2, Tunis*

- Automated end-to-end test suites for a multi-module SaaS platform with Robot Framework and Selenium, alongside manual exploratory testing and detailed bug reporting.

Full-Stack Developer Intern — IJSchool France *Jul – Aug 2026 Saint-Maur-des-Fossés, Paris (Remote)*

- Delivered a production portal replacing a fragmented Notion workflow, now used by approximately 100 trainers.
- Implemented web security best practices and a comprehensive test suite covering unit and end-to-end scenarios.

Full-Stack Developer Intern — Tachafy *Jun – Aug 2025 Lyon, France (Remote)*

- Built PWA features and responsive UI components in React and FastAPI for an AI-driven healthcare platform.

KEY PROJECTS

TRACiFY — Role-Based Task Management System *2026 React, Node.js, Express, PostgreSQL, RBAC*

- Built a role-based task platform (Admin, Lead, Member) with task workflows, commenting, and interactive dashboards.

Curriculum Builder — Automated Schedule Management System *2026 React, Vite, TanStack Router, TanStack Query, Appwrite, shadcn/ui, Tailwind, Docker*

- Developed an automated curriculum management platform using a Constraint Satisfaction Problem (CSP) algorithm to generate conflict-free academic schedules.

LEADERSHIP & TEACHING

Vice President — CyberTrace Club, ISSAT Sousse *Sep 2025 – Jun 2026*

- Coordinated cross-functional activities across HR, Management, Marketing, and Technical teams.

Web Development Instructor — Microsoft Club ISSATSO *Sep 2024 – Jun 2025*

- Delivered HTML, CSS, and JavaScript training; mentored students through hands-on web development projects.

EDUCATION

Engineering Degree in Software Engineering — ISSAT Sousse *2024 – 2027 Higher Institute of Applied Sciences and Technology, Sousse, Tunisia*

Preparatory Cycle in Engineering — ISSAT Sousse *2022 – 2024 Higher Institute of Applied Sciences and Technology, Sousse, Tunisia*
