PROFESSIONAL SUMMARY

Software Engineering student specializing in full-stack development, scalable system design, and test automation. Experienced shipping production web applications with cloud deployment, AI/ML integration, and modern JavaScript and Python stacks.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, Java, C, C++, SQL, PL/SQL
- **Frontend:** React, Angular, Vite, Tailwind, HTML5, CSS3, React Router, TanStack Query
- **Backend:** Node.js, Express, FastAPI, Spring Boot, Django, Symfony, REST APIs
- **Databases & Cloud:** PostgreSQL, MongoDB, SQLite, Appwrite, Airtable, Docker, Git, GitHub, Azure, CI/CD
- **QA & AI:** Vitest, Playwright, Selenium, Robot Framework, k6, Groq, Prophet, n8n, Figma, Agile/Scrum

EXPERIENCE & INTERNSHIPS

Software Test Automation Intern — CleverTech France (DAXme) *Jul – Sep 2026 Les Berges du Lac 2, Tunis*

- Built automated end-to-end suites for five DAXme modules using Robot Framework and Selenium; covered 47 test cases with a 96% pass rate and zero failures.

Full-Stack Developer Intern — IJSchool France *Jul – Aug 2026 Saint-Maur-des-Fossés, Paris (Remote)*

- Shipped a production portal (React, Vite, Tailwind, Airtable) replacing a Notion workflow, now used by approximately 100 trainers.
- Implemented web security (CSRF, rate limiting, XSS) and wrote 198 unit tests plus 32 E2E tests; achieved Lighthouse 99/95/100 in production.

Full-Stack Developer Intern — Tachafy *Jun – Aug 2025 Lyon, France (Remote)*

- Built PWA features and responsive UI components in React and FastAPI for an AI-driven healthcare platform, improving cross-device performance.

KEY PROJECTS

TRACiFY — Role-Based Task Management System *2026 React, Node.js, Express, PostgreSQL*

- Built a role-based task platform (Admin, Lead, Member) with task workflows, commenting, and interactive dashboards.

Freelance UI/UX Design Mission *Sep – Dec 2025 Figma, User Flows, Wireframes, High-Fidelity Prototypes*

- Delivered a complete mobile and web application design for a client, including user flows, wireframes, and high-fidelity prototypes.

LEADERSHIP & TEACHING

Vice President — CyberTrace Club, ISSAT Sousse *Sep 2025 – Jun 2026*

- Coordinated cross-functional activities across HR, Management, Marketing, and Technical teams; supported event operations.

Web Development Instructor — Microsoft Club ISSATSO *Sep 2024 – Jun 2025*

- Delivered HTML, CSS, and JavaScript training; mentored students through hands-on web development projects.

EDUCATION

Engineering Degree in Software Engineering — ISSAT Sousse *2024 – 2026 Higher Institute of Applied Sciences and Technology, Sousse, Tunisia*

Preparatory Cycle in Engineering — ISSAT Sousse *2022 – 2024 Higher Institute of Applied Sciences and Technology, Sousse, Tunisia*

LANGUAGES

Arabic (Native) | French (Fluent) | English (Professional) | Spanish (Intermediate)

HACKATHONS

Participant: Imgoster (1st Place, 2025), Ideathon V3.0 (2025) & V4.0 (2026), The Maze V1.0 (2024), CyberSummit 3.0 (2025), ShieldsUp (2026)

Organizer: The Maze V2.0 (2025), CyberSummit 4.0 (2026), Mission Impossible (2026), Coding Moon Challenge (2025)
